Putting The Strategy Guide To Work

The Final Fantasy Strategy Guide was designed to help you find as quickly as possible the information you need for your adventure. There are two ways to find information. First, identify where you are in the game on the Map on pages 4-5. Then turn to the pages indicated for the information concerning that part of the Final Fantasy World. On the first page of the chapter is a blown up map of that region, which further directs you to the specific information you need. There is also an index at the back of the Strategy Guide that directs you to specific persons, places or things.

The King's Quest

As the game opens, four travellers have appeared at the gates of the castle in Coneria. All are young and inexperienced, but bold. One seems to be a fighter—a knight in training. Another appears in the garb of a martial arts black belt. The two remaining members of the party are mages—apprentice wizards. Their coming was foretold long ago ...

Northeast of Coneria you'll find stronger monsters in the field: Iguanas, Mad Ponies and others. Run away if your HP is low.

You can't cross this channel before completing the King's quest. If you are successful, however, the King will build North Bridge in gratitude. See p.9 for more details on the King's quest.

Rise & Fall

Coneria Town was once called the Dream City. That was before the darkness and the rot began spreading upon the Earth. In those golden days four orbs of power controlled the four elements of Wind, Fire, Water and Earth, but then the light drained from the orbs and the balance was destroyed.

As shadows lengthened and the ground shook with tremors, Lulukahn the Prophet announced that four heroes would appear in time to grapple with this new evil. The Light Warriors he named them, and then he departed to join the Circle of Sages at Crescent Lake.

In the Kingdom of Coneria, as in all the free world, the evil spread from day to day. Nightmarish creatures now roamed the forests and cities lay in ruins. The Dark Age had come at last, and leading the forces of shadow was a knight named Garland. It was he who had crippled the four orbs, and it was he, too, that kidnapped Princess Sara of Coneria. Only the coming of the Light Warriors could save them.

Castle Coneria

In the castle you'll collect information and, later, when you have the Key (see p.19) you'll also obtain valuable treasures. After visiting the King, see the guard down and to the left of the King's room. Then talk to the wise men on the ground floor.

✦ Locked Doors And Hidden Secrets

On the ground floor of Castle Coneria you will reach the Treasure Vaults by following the path to the right of the castle's entrance. There you will find two wise men and two locked doors. Both repeat the same message—how 400 years ago the Treasure Vaults were locked with a mystic Key and how that Key was given to the Prince of Eifland for safekeeping. To recover the Key, see p.19.

T.N.T.

This volatile explosive has been kept in the Treasure Vault for 400 years. It is used in Chapter 2 when you visit the Dwarves. (See p. 25.)

✦ The King Of Coneria Needs Your Help

Everyone in Castle Coneria seems to have heard of the Light Warriors, including the King. Visit him on the second floor of the castle to learn how the legendary Light Warriors can help. It seems that the King can do nothing to save his daughter, who has been kidnapped by Garland. But he has faith in the Light Warriors. Therefore it is up to you to find Princess Sara and return her safely home.

Having seen the King and Queen, your quest should be clear. The Light Warriors must somehow rescue Princess Sara from Garland. You also know that you must seek her to the northwest. But before setting out you'll need weapons, armor and magic spells. In Coneria Town (p.10) such items can be purchased.

Caneria Town

In Caneria the Light Warriors prepare for their quest by purchasing weapons, armor and magic in the town shops. You'll also learn that to the east lies a port city called Prayvaka (p.14) and that Lukahn the Prophet has gone to Crescent Lake (p.37).

☞ The Light Warriors Prepare For Garland

At Level 3 your Light Warriors should have no difficulty defeating Garland. He is susceptible to SLEEP and FIRE magic and the strong attack of Fighters. Make sure your party's HP is full before entering the room, however, as your foe can cause severe damage—up to 30 HP per attack. It's also a good idea to bring some Heal Potion along in case Garland's attack is fierce.

Near Central Town it is easy to earn Experience Points and build up your level by fighting Imps and Wolves. Once you reach Level 2, go to the Temple Of Fiends to earn even more Experience and Gold.

Some weapons and armor are most effective if used against certain enemies. The category of a monster may indicate what weapon to use. For instance, if fighting a gargoyle, use the Giant Sword or against magic users try the Rune Sword.

✦ Fighting Garland

At Level 3, Garland will almost certainly fall to the Light Warriors. At Level 2 it's more of a challenge, but Garland can be defeated. Your Black Mage or Red Mage should use FIRE three times in a row if necessary while your Fighter, equipped with a Rapier, should attack. The White Mage and Black Belt or Thief should also attack. If one warrior is injured, the White Mage should give him the Heal Potion.

GARLAND

Upon entering Garland's throne room you'll note the Princess behind Gerland, not to mention his pet bats. Step forward and Gerland will greet the Light Warriors with threats and insults. His confidence is great, but your might is greater still! At the point you cannot prevent battle and escape the room. You'll have to fight to the finish.

The Temple Of Fends has sealed your fate.

✦ Princess Sara Is Saved

Princess Sara recognizes the Light Warriors and magically whisks them back to Castle Coneria. Sara demonstrates her gratitude by bestowing a very precious gift upon the Light Warriors—the Lute—which is used late in the game (p.75).

SPECIAL ITEM

The Lute

Through all your adventures you'll carry the Lute. Only when you reach the final chapter, however, will you put it to use. Read more about how it's used on p.75.

✦ A Bridge Is Built

So great is the gratitude of the King that he has a bridge built spanning the northern channel to the mainland. Now your journey can truly begin. Before crossing, talk to the people again. Many have new messages. Learn about the Lute from a man in the castle.

Upon the bridge the life suddenly appears along with the game credits. Now at last the real challenge is laid before you.

Matoya's Cave

Once Sara is safe, a woman in Coneria Town trusts the Light Warriors enough to tell them about Mataya, a witch who lives in a cave to the North. Follow the woman's advice and visit Mataya. You'll also learn a very special magic spell in the cave.

✦ *The Talking Broom Knows A Magic Spell*

Although it seems as if the Broom is speaking gibberish, it's actually giving you a magic spell. Translated it means PUSH B SELECT. Do this to bring up a map of the world.

✦ *The Streets Of Pravoka Aren't Safe*

After your dangerous journey from Coneria, stop at the Inn before exploring Pravoka. This way you won't stumble upon the pirates with low HP. From the town's entrance, walk directly north to the Inn.

If you have enough money, buy better weapons for use against the pirates. The Short Sword is your best buy, but the Scriber is also a good alternative at less than half the price.

✦ *Pummel The Pirates*

Bikka the Pirate is not at all pleased to find four armored and experienced warriors on his turf. But although he may think you're just a scurvy dog, he'll sic his crew on you. Suddenly nine Pirates swarm to the attack. Each Pirate can sustain only about ten HP of damage, so your entire party should be able to defeat them in hand to hand fighting.

PIRATES

HP: 6	AP: 8-16
EXP: 40	G: 40

The Pirates of Pravoka are not strong individually, but nine of them together can be a threat. If you're at Level 3, you are strong enough to attack them. It is important to watch your HP, though. If all the Pirates attack one party member he could lose HP quickly. Have some Heal Potions on hand to prevent an untimely defeat.

✦ *You've Won A Ship!*

Once you've freed Pravoka from the Pirates you'll find Bikka, their captain, is still in town. Talk to him. He'll admit defeat—rather graciously for a Pirate—and give you his ship. The ship will be waiting for you in the

harbor just outside of town when you're ready to leave Pravoka. With the wind in your sails you'll be able to travel to lands previously beyond reach.

The ship will be docked at the port outside of the town after you defeat the Pirates in Pravoka.

SPECIAL ITEM

Ship

The speedy pirate ship is your means of reaching the southern lands across the sea.

✦ *The Pravokans Are No Longer In Hiding*

The townsfolk are out in force now that the streets are safe. They have a lot to say, too, about the Elf Prince and Matoya's Herb, and also about the town of Melmond.

Only at ports can the ship be docked for the party of Light Warriors to disembark.

Listen to the women who tells about the Prince of the Elves. It seems he needs an Herb from Matoya to wake up.

Chapter 1

Summary Of Events

1 CASTLE CONERIA

Meet the King and speak to the people. You'll learn about your quest and the legend that foretold your coming.

2 CONERIA TOWN

Get information and buy supplies for your adventures in the outer world. Return to the Inn to fill up your HP and to save your game.

3 TEMPLE OF FIENDS

At Level 2 or 3 enter the Temple, defeat Garland and rescue Sera. A number of rooms remain locked. Return later with a mystic key.

4 CASTLE CONERIA

The Princess gives you the Lute and the King builds a bridge across North Channel. Many people have new tasks to tell.

5 CONERIA TOWN

Here, as in the castle, the news of your victory over Garland has loosened the tongues of the good folk. You'll hear about Matoya.

6 NORTH BRIDGE

As you cross the bridge you'll learn more about the four orbs and the credits for the game will appear.

7 MATOYA'S CAVE

The Brood tells you a cryptic spell—Push B Select. You'll also learn that Matoya needs a Crystal to see.

8 PRAVOKA

Defeat the Pirates and win the ship. Learn about the Elf Prince and Matoya's Herb. Buy better weapons and Level 2 Magic.

Unsolved Mysteries

You've come a long way and learned much. Still, many questions remain to be answered. Where in Bifland is the mystic Key? Or where should you look for Matoya's Crystal? And what is wrong in Melmond?

Every clue seems to point toward the South, the direction you must now go.

Who in Bifland might have the Key to Coneria's treasures? Perhaps it is the Prince?

What sort of danger threatens the town of Melmond in the far west? How do you get there?

Battle Techniques

Undead Enemies: When fighting the Undead, FIRE and HARM magic can be devastating. Fighters should use the Sun Sword or Light Axe. Use the Mage Staff with the Item command.

HARM2 and stronger HARM3 spells are the best offense against creatures in the Undead category.

Use Thor's Hammer as a battle item to cast the LIT2 spell.

Sea Enemies: Enemies met upon or beneath the sea are susceptible to Lightning spells—LIT, LIT2, LIT3. The Coral Sword is also effective. Defend yourself by using the Zeus Gauntlet. (p.51)

Chapter 2

The Sleeping Prince

The four Light Warriors are venturing forth in their swift sailing ship. Across dangerous seas you've guided them to the shores of a vast new land with many dangers and many mysteries. Here you will venture into dark caves. You will explore castles and earn wealth and experience. But most important, you will help people in great need.

→ The Dark Elf ←

Elfland resisted the growing darkness better than most of the world, in part due to their beloved Prince. His honesty, courage and wisdom were renowned throughout Elfland and in kingdoms as far away as Coneria. But there was one Elf, named Astos, a cousin of the Prince, who lived further north and west in a country that fell under the spreading shadow. Over the years his castle fell into ruins and creatures of darkness made it their abode. And as the shadows deepened on his land, Astos also fell under their gloomy spell. He began to brood and soon jealousy crept into his heart—jealousy over the good fortune of his cousin.

With his evil band Astos marched on the Castle of Elf, defeated the Elfish army and cast a sleeping spell upon the good Prince. In this way the shadow reached even into the heart of Elfland.

On his return journey, Astos came upon an old woman in the forest who peered at him through a lens of crystal. "Wicked creatures!" she shrieked, making gestures in the air as if to ward off evil spirits. Ignoring her curses, the Dark Elf stole the crystal and left her blind in the wilderness.

Castle Of Elf

In the Castle of Elf you will learn about the cruel fate of the Sleeping Prince, but you will also hear that an herb can awaken him and that Mataya has such an herb. By helping Mataya and the Prince you will earn entrance into the locked Treasure Vault.

Unlocking The Mystery

The pieces of the puzzle fit like this: to wake the Prince you need a magic Herb; the Herb is held by Mataya; bring Mataya the Crystal that Astos stole and she will give you the Herb; defeat Astos to claim the Crystal, but first you must find his Crown in the Marsh Cave and return it to him. The road is a long one.

The Dark Elf must be defeated at Northwest Castle after you bring him his precious Crown. Only in this way can you win the Crystal stolen from the witch, Mataya, so long ago. See pgs. 22-23 for more details on this difficult task.

With the Crystal in hand you'll return across the sea to the North. Seek out Mataya for the second time and give her the Crystal. Gratefully, she will in turn give you the Herb to awaken the sleeping Prince in Elfand.

Go south once more with the Herb. Take it to the Castle Of Elf and wake up the Prince. He will revive, then award the Light Warriors with the mystic Key with which they can open locked doors and recover valuable treasures.

The Sleeping Prince Holds The Key

Many years ago, the King of Coneria entrusted the Key to his treasure with the Elf Prince. To get this key the Light Warriors must somehow wake the Prince from his long sleep.

This wise man in Coneria tells you where to get the Key.

➤ Earn Ogre Gold The Easy Way

To obtain the great weapons and high level magic spells in Elfland you'll need lots of gold. East of Elfland is a place where Ogres appear frequently. (See the map on p.18) Defeat the Ogres to win their gold.

Battling Ogres can be exhausting. When your HP starts to drop, visit the Inn.

The combination of Ogres and Creeps in this area is great for building up your Levels as well as earning cold cash.

Northwest Castle

Visiting the ancient home of Astos is your next great task. At Level 4 or 5 you can reach the Northwest Castle. There a king claims that Astos has stolen his crown, but you are not yet strong enough to chase into the Marsh Cave after it. Wait until Level 8 or 9.

✦ The Nameless King

An Elf in Eilfland warned you that Astos is in disguise. It is true. At first he seems to be a lonely monarch who has lost his crown.

The only double-crossing going on here is by the mysterious king in Northwest Castle. His command is one you must obey, but his purpose is not noble in the least.

✦ The Dark Elf Exposed

Once you've battled through the Marsh Cave and recovered the missing Crown (see p.23) you'll return to Northwest Castle. Then Astos reveals himself as a wicked and powerful king and attacks the Light Warriors. As always, enter the fray with your maximum HP. The best attack strategy is to use FIR2, or FAST on Fighters and Black Belts.

Your Black Mage or Red Mage can play an important role in two ways. His FR spell will hurt Astos directly and by using the FAST on Fighters, Black Belts, Thieves, they will inflict greater damage. CUR2 will also come in handy as Astos can do more than 50 HP of damage of Light Warrior. You'll need to be to get wounded party members back on their feet.

When you defeat Astos you will receive the Crystal. Take this to Meloye (p.13) and exchange it for the magical Herb that will wake up the Elf Prince.

SPECIAL ITEM

The Crystal once belonged to Meloye and helped her vision. Return it to her and you'll receive the Herb to wake the Prince.

✦ Surviving The Marsh Cave

Staying alive long enough to get in and out of the Marsh Cave with Astos' Crown is no easy task. Your Level 3 Magic spells will help. CUR2, FIR2, LIT2 and HRM2 are all excellent. Also stock up on Heal and Pure Potions—as many as you can carry.

Some are amazingly resistant to attacks from weapons. LIT2 is your best offense against these monsters and their relatives, the Mucks and Stimes and Cores.

Undead creatures like the Bone and Red Bone won't last long when attacked by Fire and Harm spells. Weapon attacks can be effective as well.

Monsters with poison bites are not a problem provided that you have brought along plenty of Pure Poison, if you haven't, every step taken by poisoned warriors weakens them.

If the Floater truly can lift any object then it is a mighty instrument indeed.

You will search long and hard before coming across the mineral called Adamant.

Chapter

The Rotting Earth

Now the Light Warriors have passed beyond the inner lands to the great Western Sea. Here they will encounter the first of the four elemental forces and enemies far stronger than any they have met up to now. The once beautiful town of Melmand is a source of infatuation, magic, weapons and a place to recover strength.

Titan's Tunnel ▶ p.30

Melmond ▶ p.29

In this western region the rot of the land is ancient. The town of Melmond is in ruins and in the outer world much of the land is covered in vast swamps.

Earth Cave ▶ p.31

◆◆◆ The Dying Earth ◆◆◆

In ages past the town of Melmond was known as a seat of learning, a city of peaceful traders and beautiful gardens on the western border of civilization. But when the light was drained from the four orbs, Melmond suffered greatly, perhaps more than any other town. The rich soil underneath turned to clay. The plants died. People moved away to seek a living in more hospitable lands. Some of the braver citizens sought the source of the rot, wandering further afield until they reached the black mouth of a cavern far south of Melmond. There they heard of the coming of Lich, the

Fiend of the Earth, but none returned to tell the tale.

For an age Lich had remained buried in the cool bosom of the Earth, waiting for his time of ascendance. When light drained from the orbs, Lich sensed it and he stirred. Creeping from his dark bole, the foul breath of his passing turned all it touched into poison. The rot spread across the land like a brush fire. It was the beginning of the end, and Lich rejoiced.

Having won the Ruby and passed through the Titan's Tunnel, you will find the cave at Sarda and the old sage inside. He will give you a Rod, which can be used as a lever on the Stone Plate in the Earth Cave.

♣ *The Rod Opens The Way*

With the Rod, return to the Earth Cave and pry open the Stone Plate. It is the only way to reach the lowest levels of the cavern.

Sarda describes how the Rod is used and finds at the presence of Lich, who has caused the rot.

Visit Sarda And Claim The Rod.

The Rod gives you the strength of a dozen men, enough to lift the heavy Stone Plate.

5 TITAN'S TUNNEL

Return to the Earth Cave via the Titan's Tunnel. Make sure to collect treasure in the treasure vault in the tunnel.

6 EARTH CAVE

Lift the Stone Plate and venture into the depths of the cave. Battle Lich, the Earth Fiend, if you win, an orb will shine again.

Unsolved Mysteries

What are these tales of a great civilization in the Far North and of the Floater, a stone that defies gravity? They sound more like rumors than reality, but in following the trail of myths you may find them.

If only one could reach this ancient civilization one might find powerful help for the battles to come.

A floating stone and a flying ship are just two of the wonders that lie ahead.

Dr. Mune has travelled to the Far North once himself, but he needs someone else to go now.

Battle Techniques

With the Giant Sword you can earn lots of Gold.

It takes a special weapon to turn aside a magic spell.

Another specialty weapon, the Dragon Sword comes into play more and more near the end of your quest, where you will encounter dragons. Special swords can be used for fighting other monster families, too, but they lack the strength of normal swords.

The further you go in Final Fantasy, the more weapons you will find hidden deep in treasure chests. It is important to know which ones to keep. The Giant Sword, for instance, is very powerful against enemies in the Giant family.

The Rune Sword works like magic against creatures that use magic. Look in the tables of enemies to determine if a monster is classified as a magic user.

Although the wily Hydra doesn't breathe flames, it is a member of the Dragon family.

Warriors In The Sky

The Light Warriors now turn their attention to the East. There they will find a land of many rivers, a great volcano, a cave of ice and a desert. Finally they meet Lukahn who foresaw their coming and learn of still more mysteries from the wise Circle of Sages in the town of Crescent Lake.

→ The Ancients ←

Hundreds of years ago a great civilization in the North created magical objects that could do wondrous things. One of these objects was the Floater Stone. It was able to suspend gravity around a much larger object, say a castle or a ship. And indeed with the power of the Floater the ancients built castles in the sky and flying ships.

But 400 hundred years ago a terror appeared in the skies of the North. The wonderful ships and castles of men began dropping from the air like stones. Fearing that their magic would be utterly destroyed by this new

force of evil, one brave band set out in the last remaining airship. They flew to the South where the fiend of the wind had not yet come, and there they hid their great treasure. The airship was buried in the dunes of a scorching desert while the Floater that powered the ship was taken to a cave of ice. As the men made their way back to the North, they were lost at sea, as was their precious knowledge.

Crescent Lake

The Silversmiths of Crescent Lake are renowned for their fine work. Both weapons and armor are available here. Most important are the Sages. Lukahn and the Sages have much to tell you about the four fiends afflicting the Earth, and Lukahn gives you the canoe.

✦ The Wisdom Of The Sages

From the beginning of the game the fate of the four orbs held by the Light Warriors has been a mystery. Now, in the presence of these wise men, some of the truth is revealed. Having defeated Lich already, you will have noticed that one of the orbs has regained its light. But the three other orbs remain dark. You will have to defeat each of the four elemental forces before each orb shines again, and even then your task will not be entirely complete. Also keep in mind that Lich is the weakest of the four fiends. But don't let this knowledge dishearten you. Each time you defeat a fiend you recover some of the lost power of the orbs.

Speak To Each Sage!

Here at last you learn how the four orbs lost their light. The four fiends seized it and are now turning it to their own vile purposes. Awaken that the Light Warriors are the one hope of the world, Lukahn gives you the Canoe to speed you on.

✦ Seek The Floater

When you first encounter this fellow he doesn't have much to say. But after defeating Kary, the Fiend of Fire, speak to him again and he'll tell you to look for the Floater in the Ice Cave.

To receive this message you must first defeat Kary in the depths of the Gungu Volcano. The cave of which the man speaks is in the mountains to the North. Once more you must travel using the Canoe.

SPECIAL ITEM

The Canoe

The only way to reach the interior of this region is by Canoe. Once Lukahn gives it to you, simply walk to the river and the Canoe will be launched.

✦ Remember EXIT

The importance of EXIT magic will become apparent as you reach even more difficult mazes and dungeons. Once you have completed the Class Change (see Chapter 5, p.52) return to Crescent Lake and buy EXIT. It is the most important magic in the game!

Although the magic spells are getting costly, EXIT and INZ are both well worth the Gold you spend. Unfortunately, you won't be able to buy them until later in the game.

Gurgu Volcano

Just as you did at the Morsh Cave, use a House before entering the Volcano. If your party dies inside, you'll be able to come right back. The hot lovo floors will drain HP with each step. Be prepared with a full load of Heal Potion.

Much valuable treasure, including armor and weapons especially suited for use in the fiery realm of the Volcano, is to be found here. Take your time. Kary the Fire Fiend isn't going anywhere. If you bring several Houses along, you can restore HP using magic. This saves your Heal Potions for the final assault.

Use the House outside the Volcano to recover HP and magic fast while collecting the vast treasure. Two or three trips in and out should be all you need.

✦ Fighting Fire Monsters

As you might guess, the best way to defeat creatures of fire is with ice. Ice spells are particularly effective in the volcano. The Ice Sword, which you'll find on Floor B4-B, is by far the best weapon for your Fighter. As for armor, in the Ice Cave you'll find the Ice Armor, (see p. 44) which protects you from the hot, scorching attacks of many monsters including Kary.

ICE2 is your best shock spell in the Volcano. For protection, use AFIR. Your magic is limited, however, so don't waste either of these spells on weaker foes. A conventional attack works fine against most of the enemies.

✦ Predicting Enemy Attack

Many treasure rooms are guarded by powerful monsters who always appear in the same place. Knowing this you can be prepared for their attacks and, sometimes, you can avoid them altogether. Some monsters attack as soon as you enter the room. But others inhabit only a single spot inside. If you step into a treasure room and are not attacked straightaway, try going around the edge of the room. By doing so you may avoid whatever guardian monster is lurking there.

As always, don't enter a fiend's lair until each Light Warrior has full HP. To conserve your magic, you should use only Heal Potions on the way down to Kary's room. Equipped with the Ice Sword and Ice Armor, a Fighter can inflict a lot of damage, but you can boost that by using FAST. Red and Black Mages get in their licks with Fire spells. The White Mage uses AFIR and INV2 to help protect his companions.

BATTLE TECHNIQUES

When fighting enemies of Fire or Ice, always use the opposite attack. Fire vs. Ice monsters. Ice vs. Fire monsters. The same is true for armor, weapons and spells.

If you know a Fire monster is lurking nearby, equip with your Ice weapons and armor.

Unsolved Mysteries

Two fiends have met justice at the hands of the Light Warriors, but if the Sages are to be believed, two more remain. Perhaps when you fly to the wide reaches of the North you will learn more about the fiends of Water and Wind.

The two remaining fiends have been here longer. Does that mean they are stronger?

The Aegis Shield can reflect the spells of monsters who turn you to stone. Only a Knight can equip the shield.

Medusans and others who use Gaze spells can turn the unwary warrior into a statue. Prevent this by using the Aegis Shield, which blocks their spells. Learn more about the Aegis Shield on p.70.

The conspiracy of the four elemental fiends is known, but how did they unite?

Why don't these wise men tell you the whole story?

The Ribbon and Pro-Ring are two more special defensive tools. The Ribbon should be used to protect against the special attacks of monsters. The Pro-Ring can deflect the RUB spells.

If you know an area is infested with these monsters, prepare by equipping with Pro-Ring or Ribbon.

Chapter 5

Rewards Of Courage

Now that they're aboard the Airship the Light Warriors move quickly to new lands and adventures. Before them lies a great challenge. The first step is a chain of green islands. Here in the Cardia Islands is the home of Bahamut's Dragons. Bahamut, the King, can bestow a great gift, but first you must prove your courage.

Chapter 5 MAP

Flat Field

Grassy Plain

Landing the Airship is a bit like finding a safe harbor for the sailing vessel. Only flat grassy land will do. The result is that to reach certain locations, such as the Castle Of Ordeal, you'll have to land in a remote field and hike to your destination.

The Castle Of Ordeal is enclosed with swamps, mountains and forests. The closest landing site is shown here—far to the east of the castle. Take several Horses with you to avoid having to march back to the Airship every time your HP runs low. You will encounter the same problem in Chapter 6 when you want to go to the town of Lethes.

Castle Of Ordeal ▶ p.50

The Dragon King

In the days when the rot began and the light of the orbs dimmed, the Dragonfolk lived on the peninsula east of the Cardia Islands. The Castle of Ordeal was then called Babamut's Keep, but a legion of fearsome monsters swept down upon the castle from the North, and such were their numbers that Babamut and his people had to flee. Taking refuge in the islands west of their ancestral home, the Dragons found safety, but they began to know fear.

Seeing this, King Babamut looked for a way to instill courage in his people—a courage that would be needed

if the new forces in the world were to be bold at bay. And so he devised the Trial Of Courage. Babamut was the first to go. Alone he travelled to the castle that once was his home. Alone he entered the gate and, fighting loathsome creatures at every step, made his way to the Throne Room high on the third floor. There he hid a token in a treasure chest, then fought his way back to the Islands.

In the days and years that followed, any dragon or man who sought Babamut's support was required to seek proof of his courage in the Castle. Many followed in the Dragon King's footsteps, but none returned with the token.

Cardia Islands

This is the home of the Dragons of Cardia. The dragons seem to have courage on their minds. Everywhere you go there is talk of testing and ordeals. That is the way of dragons; they respect bold and courageous humans and despise weakness. The Light Warriors must seek out King Bahamut and learn the task he has set for them.

✦ The Dragon's Test

The Light Warriors are bidden to go to the Castle Of Ordeal and return with proof of their courage. But what is that proof? None of the dragons are willing to speak of it. Surely it must be a very terrible thing if the brave dragons will not even mention its name. Or perhaps part of the trial is to discover the object. In fact, that is exactly what is expected. The real trial lying ahead is to penetrate the castle and poke into every nook and cranny. Then bring back what you find.

Do not fear Bahamut. Go to him and learn something of your destiny. Later, you will visit him again.

Castle Of Ordeal

The Castle Of Ordeal is aptly named—the inhabitants are fierce, the mazes are devious and the goal is unclear. Three floors of constant danger and battle await those who enter, but you have no choice. Make sure your HP is full and that you have 99 Heal Potions.

✦ Battle Tips

Many powerful magic users dwell in the Castle. Against some of these you'll have little defense. The INV2 spell helps the warriors dodge. MUTE works on many, such as the Medusas. AFIR is a must against the Mancats. Use these defensive spells at the start of an attack and always consult the appropriate table for information about the enemy who is attacking.

Come prepared with Soft Potions in case you're harmed to stone.

Wizard Mummies usually appear in groups. FR2 will get rid of them.

✦ The Column Maze

The second floor of the Castle is a maze of closed rooms. If you touch a column, however, you'll be transported to one of the other rooms. Follow the letters from A to H in alphabetical order and you'll reach the third floor quickly. This will reduce the number of attacks you face while in the Castle.

Collect the Zeus Gauntlet after reaching H, then go upstairs to the third floor.

✦ Tell The Tail Of Courage

In the most remote chamber at the top of the third floor of the Castle is a Treasure Chest containing the Tail. You'll have to defeat the Zombie Dragons first—no small detail. FIR2 and FAST are both effective. Then, to make a long trip short, step onto the throne. You'll be transported back to the first floor of the Castle. Now return to Bahamut. He rewards your courage by promoting the Light Warriors to a higher status.

 THIEF	Once the Thief becomes a Ninja a whole new world of specialized weapons opens up. He is also able to make use of most pieces of armor. His quickness and strength are enhanced and he can use some magic.	NINJA 
 BLACK BELT	The Black Belt/Master is a very special warrior. With the skill of hands and feet, speed and intelligence, he can combat anything. After transformation, the Master becomes your best pure fighting warrior.	MASTER 
 RED MAGE	When the Red Mage becomes a Red Wizard, his attack power is enhanced. Still, the Red Wizard remains the one well rounded warrior in the party, able to use most weapons and mid to low range magic spells.	RED WIZARD 
 WHITE MAGE	The White Wizard is considerably stronger than his former self as a White Mage. Late in the game you may even wish to equip him with a powerful sword. His best role, however, remains that of protector.	WHITE WIZARD 
 BLACK MAGE	The Black Mage gains some physical stamina and strength from his transformation to Black Wizard, but not enough to make him much of a fighter. Casting Black Magic is still his strength and chief purpose.	BLACK WIZARD 

Chapter

The Sea Shrine

With new powers and resolve, the Light Warriors open the door to their greatest challenge yet. From the towns of Onrac and Gala come many rumors of fantastic machines, of a shrine that sank with the coming of the Fiend of Water and of robots that fall from the sky.

A Mermaid's Tale

The storm that sank the Sea Shrine came on as a dawn of red skies and hot winds from the East. By noon dark clouds boiled overhead and 20-foot waves crashed against the marble walls of the Shrine. Inside, the Mermaids watched with apprehension. It had long been known that something was amiss in the world, but until now the sea had been their friend. They stowed their most valuable possessions on the top floor of the Shrine, then settled down to wait.

It soon became clear that the Shrine could not withstand the waves and wind for long. But the Mermaids worried more about the town of Onrac, for the people there could be swept into the sea and lost, unlike the Mermaids. As the storm reached its peak of fury and the Shrine began to slide into the depths, one Mermaid escaped. She warned the people of Onrac, who fled inland and were saved, but in so doing the Mermaid had lost her own home forever.

Gaia

Nestled in a narrow mountain valley, the town of Gaia is well protected from the troubles of the wide world beyond. Here you'll find specialized weapons and armor, Level 7 and 8 magic and a mysteriously empty pond in the woods behind the town.

✦ *The Fairy's Spring*

At one time a Fairy lived in this quiet pond, but by the time the Light Warriors arrive on the scene she is gone. Clues are given both here in Gaia and in Onrac. To find the Fairy, see p.59.

To make use of this magical spring you must find the Fairy and return her to her home. Do so and she'll give you a present of Oxyale.

SPECIAL ITEM

Oxyale

Available only from the Fairy's Spring in Gaia, and from the hands of the Fairy herself, Oxyale is used to provide fresh air in the submarine.

✦ *The Magic Shops Of Gaia*

Buying magic spells is starting to get expensive, but with all the loot you've collected from the Volcano, Ice Cave and Castle of Ordeal you should have plenty. All of the available Level 7 spells are valuable. FADE, WALL, STOP and ZAP are all good buys in the Level 8 shops.

STOP will freeze time for some enemies, including one powerful fend whom you've already met.

✦ *Special Weapons & Armor*

If you have a Black Wizard in your party you will have noted that he has no great strength for fighting. The Catclaw can help change that. The ProRing protects against the RUB spell. Many of the creatures you'll soon meet use RUB and the results can be devastating.

The Protective Ring is a must buy equip all your warriors with one.

✦ *Tips To Save You Time And Gold*

The Best Deal in Town

The Airship is so fast that you can quickly reach the cheapest inn to recover HP and save your progress.

Don't waste gold on expensive trips. Stay at Conera's Inn.

Buying With Turbo Power

Buying Heal Potions with a turbo controller is fast and easy. Just hold the A Button and fill up your stockpile.

The Heal Potion must be on the top of the list, like in Conera.

Run When You Have A Chance

Sometimes when a battle begins, a message comes up saying that you have the option to fight first. Take advantage of it and run.

If you're trying to reach a distant goal, run if you can.

Save Magic And Heal Potions

If you get into a fight with weak enemies, use your Heal Helmet and Heal Staff to recover HP. You'll save on Heal Potion and Magic.

There is no cost in using items to Heal your party in battle.

Onrac

In Onrac, the Light Warriors hear much about mermaids and robots and other fantastic beings. All of it is true. At the port you will find a submarine that can take you to the Sea Shrine where the mermaids live. You'll also meet Dr. Unne's brother from Melmond.

✦ The Fate Of Onrac

As people both in Onrac and Crescent Lake tell you, until the coming of the Water Fiend 200 years ago, Onrac was part of a great civilization. Part of that power was derived from the good will of the Mermaids who lived nearby in a shrine, but now the shrine has been lost beneath the waves.

Onrac was once a mighty center of trade and learning.

The Sea Shrine and the Mermaids helped the people of Onrac

But, as in the rest of the world, things began to go wrong

✦ Caravan Chies

Onrac is still the place to hear news of the world. In speaking to the citizens, you will learn that there was something very strange being offered for sale at the Caravan.

The Caravan Meister's daughter reveals the location of the Caravan: it is at the oasis in the Western Desert. Make sure you have lots of Gold when you go to buy the Fairy.

✦ How To Reach The Shrine

Since the Sea Shrine sank there is just one way to reach it—that's by using the Submarine in Onrac. But to do that you'll need Oxyale, and Oxyale must be given to you by the Fairy. Unfortunately, since the Fairy has been sold to a Caravan, she can't help you unless you buy her back. If you go to the Western Desert, near an oasis, you'll find the Caravan. Buy the Bottle, as it contains the Fairy inside, and take the Bottle to the Fairy's Spring in Gaia. Release the Fairy and receive the Oxyale. Now take the Oxyale back to Onrac. Finally you'll be allowed entrance to the Submarine. Simply enter the Submarine and you'll be taken to the Sea Shrine.

At the Sea Shrine you'll have two objectives. One is to seek out the Mermaids. They'll give you treasure and a special gift. After that, you must challenge the Fiend of Water, Kakra.

At the Sea Shrine you'll have two objectives. One is to seek out the Mermaids. They'll give you treasure and a special gift. After that, you must challenge the Fiend of Water, Kakra.

✦ U.F.O.s In Onrac?

One man insists that he saw a shiny object fall from the sky and others have seen a robot to the north near the Great Waterfall. So what are these Unidentified Falling Objects? Learn more about them and the journey to the Waterfall on p.63.

Another mystery is introduced. What was the object that fell to Earth? Shiny ball? A bird bird? Perhaps it was just the Light Warriors landing at their Airship?

But Kops seems to think it was a robot. Maybe so, but where did it come from? The moon? The stars? Or could there be something else in the sky, a place from which robots fell?

✦ Dr. Unne's Brother

Near the Inn in Onrac you'll come across Dr. Unne's brother. He tells the Light Warriors that Unne has been unraveling the mysterious language of Lefaisish, but that a stone tablet with valuable translations is needed to finish the work. A woman in the town says that many treasures sank with the Sea Shrine and that one of them was a stone plate. Could this be the translation Slab?

The answer, one way or the other, lies at the bottom of the sea. When you enter the Sea Shrine your first task will be to find the Mermaids. Perhaps they will lead you to Dr. Unne's Slab.

The Caravan

In the northern part of the desert west of Onrac, near the green oasis, the Caravan has set up for business. One specialty item is for sale that is of utmost importance to the Light Warriors.

✦ Purchase The Bottle

Although unmarked, the Bottle commands a stiff price. Its contents must be very rare and valuable. In fact, the Bottle contains the Fairy from Gaia. Pay the 50,000 Gold pieces.

SPECIAL ITEM

The Bottle

If the Fairy in the Bottle is released at the Fairy's Spring in Gaia, you will receive Oxyale for use in the Submarine.

The Caravan Camp

✦ The Prize In The Bottle

Once you have possession of the Bottle, take it to the Fairy's Spring in Gaia and open it by selecting 'Bottle' from the Item submenu. The Fairy, once released, will give you a supply of Oxyale (see p.56), which is an essential part of the Submarine in Onrac.

In Gaia, make your way to the Fairy's Spring. Then by the shore, open the Bottle to release the captive Fairy. After she gives you the Oxyale, you're ready to tackle the Sea Shrine.

Chapter

Quest's End

Through terrors no other heroes dared to face the Light Warriors have come to the final chapter of their great adventure. Ahead lies the mystery of the Mirage Tower and the rumors of a castle in the sky. One fiend, the Fiend of the Wind, remains to be tamed. But what comes after that? All will be revealed in time . . .

Outer World Enemies: p.68

To go to the Mirage Tower, land the Airship on a strip of grass in the shadow of the Eastern Mountains. If you're going to Lefain, land near the lake as shown here.

⚔️ The Floating Castle ⚔️

In the early days of the technological ascendancy of Lefain, a debate raged over whether it was a good idea to build castles in the sky. Some people argued that what goes up must come down, and as a result those people still on the ground when the castles eventually came down would get squashed. Others said that if Man had been meant to build castles in the sky he would have been given nests, but no one really understood that argument and few supported it. A lack of support was, in fact, the problem most people had with floating architecture. Defying gravity was all well and good when it came to Airships. But castles were another

thing altogether. Many of the Lefainish believed that something terrible would happen if the castle was built.

But the castle was built, and a staff of robots was made to keep the place in order. The Sky Warriors made it their home and kept peace throughout the world until the coming of the Fiend of Wind. Then everything changed. An enemy force of cruel monsters swept in like a tornado and the Sky Warriors escaped with a single Airship. The people of Lefain wondered if they had unwittingly set loose the horror. But no one took the blame and the problem only got worse.

Lefein

Lefein was once the home of the great civilization of the North. Their language is foreign, but with Dr. Unne's help you can learn it. Besides a great deal of information, you'll also find a hidden magic shop with two potent spells.

Learn Your Lefeinish

If you visit Lefein before taking the Slab to Dr. Unne, it could be a frustrating trip. The fact is that the people of Lefein speak an ancient language which has been forgotten everywhere else in the world. If you

wish to make sense out of what the people are saying, follow these steps: 1) Get the Slab—the Slab is kept by the Mermaids in the Sea Shrine (see p.61), 2) Take the Slab to Melmond (see p.29), 3) Then give the Slab to Dr. Unne in Melmond—now he is able to complete his translation of the Lefeinish language, which means that he can teach it to you. 4) Go back to Lefein and listen to people as you would in other towns. Now they should make perfect sense.

Once you have learned the ancient language from Dr. Unne, travel to the town of Lefein. Whereas before they spoke only g-borish, now you can understand every word. Here you will find the descendants of the brave souls who led the Airship in the South. You

will also learn that the people of Lefein once controlled a fantastic realm that reached into the sky.

✦ Tiamat Now Controls The Sky

Four hundred years ago Tiamat, the Fiend of the Wind, stole the power of the wind from the Lefeinish Sky Warriors. Now he resides high above the Earth in the realm of stars. Perhaps the Lefeinish robots still operate the complex machinery that suspends the castle in space. The Light Warriors must find the entrance to the Sky Castle somewhere in the Mirage Tower.

The legend of four warriors bearing orbs of power has preceded you. The Lefeinish give you the Chime with which you can enter the Mirage Tower.

SPECIAL ITEM

The Chime

Only the precise harmonic tones of the Chime will open the door to the Mirage Tower.

✦ The Fate Of The Five

The five bravest warriors of Lefein went in search of the cause of the turmoil in the sky, knowing that some vast power was intent on the destruction of their civilization. They left their Airship and Floater in the South, but never returned to Lefein.

✦ A Secret Magic Shop

In the Northeastern corner of Lefein you will discover a breach in the wall. Pass through the hole and continue hiking eastward. There you will find the hidden magic shops. Each shop sells just one spell, but they are the powerful spells of LIF2 and NUKE.

LIF2 restores a defeated comrade to full strength. NUKE burns the enemy with intense heat.

✦ The Chime Is The Key

Most adventurers discover the Mirage Tower long before they hear of the Chime. But if they hope to get inside they must speak Lefeinish and get the Chime from the man in Lefein.

✦ Plundering The Tower

You'll find a great deal of treasure lying about in the Mirage Tower. Some of the weapons and armor, such as the Aegis Shield, you'll want to keep. Other pieces merely take up space. When your subscreen is full, go back to Gaia and sell unwanted items.

East of the desert is a narrow strip of grass just wide enough for an Airship to make a landing. As you cross the sands Tyro and Ankylo attack. Run from both.

The Sky Castle

✦ Visit Each Robot

Like the Robot in the Waterfall, these robots have been programmed with messages. The messages are there for warriors who may not have ventured into the Waterfall yet to recover the Cube from the other robot.

What Master?

Floated or fell?

Transport to where?

✦ Battling The Blue Dragon

The Blue Dragon is sitting just inside the door to the Transporter chamber and cannot be avoided. His Thunder spell can wreak havoc so use the Ribbon. FIR3 is the best attack spell.

Knowing that the Blue Dragon is waiting, fill up your HP before entering the room.

✦ Beam Up To The Sky Castle

In the center of the top floor of the Tower you'll find the Transporter. Use the Cube to activate the Transport Beam. Instantly the Light Warriors are transported to the Sky Castle, home of Tiamat.

The Transporter takes you to the Sky Castle

The Sky Castle

The first thing you'll notice is that the Sky Castle is obviously a product of high technology, and not just because it's miles above the Earth. Transporters and robots are everywhere. One of the guardians is high-tech, as well—the awesome WorMech.

More Treasure Than You Can Carry?

If you run out of space, remember it's easy to use the EXIT spell, then go to Gaia and sell off the excess treasure. Always check the Tables Of Weapons & Armor before selling a piece as it may have a secret use.

After clearing the Sky Castle you'll never want for Gold again. Spend it on expensive magic spells to fill out your magic subcreens.

If you don't want to spend the time going all the way back to Gaia, you can Drop weapons or armor (but don't Drop a valuable item).

Adamant is an incredibly strong compound used to make Xcalber by a Dwarfish Blacksmith.

✦ Making Use Of Adamant

Once you obtain the Adamant take it back to the Dwarf Cave (see p.25). There a Blacksmith will use the Adamant to forge a fantastic sword called Xcalber, which is second in power only to the Masamune.

The Adamant is a superior material for the forging of swords.

The Blacksmith needs only the Adamant before he will make a fabulous sword for you.

✦ Battling Tiamat

Tiamat's specialized attacks can be brutal. As with most fiends, use FAST to multiply the attack of your fighting warriors. INV2 is also good for protection. Later, when you meet him again in the Temple of Fiends, use STOP.

Temple Of Fiends Revisited: The Past Becomes The Present

The time has come for the Light Warriors to rid the world of the course of the decay. Only the strongest enemies are in the Temple now, including all four of the elemental fiends. Another point to remember is that the only way out is to use the EXIT spell.

✦ Return To Crescent Lake

Having sent Tiamat screeching into the void of oblivion it should become apparent that the game is not yet over. Only the Circle of Sages in Crescent Lake know what to do. Speak to them at once and learn about the power that controls the world from 2000 years in the past. The Temple of Fiends is revealed as a Time Gate that can be used if the four orbs shine.

FLOOR 1

FLOOR 2

✦ No Place Left To Run

The strongest of the evil creatures have been gathered to prevent adventurers from penetrating the Temple of Fiends. Most you cannot escape.

The Frost Dragon's Glizzard attack is often devastating. The Flame Armor and Ribbon can help protect you from the bitter cold. NUIKE can melt them.

The Gen Dragon's poisonous breath could wipe out your party. The Ribbon could prevent that along with INV2.

✦ Floor 3 Encounters

The Badmen who roam the third floor are one of the few enemies you can run from. Do it and save your HP for encounters you can't escape. Use FAST on your best fighting warrior to quickly dispatch the Phantom. Then use the LUTE (see p.12) to open the pathway leading down into the Temple.

FLOOR 3

FLOOR B1

✦ The Earth Floor

Floor B1 is filled with creatures from the Earth Cave. Against the Green Medusa's you should first use MUTE, then a FIR2 spell. Have Soft Potion ready for warriors who are turned to stone. Against Earth, FIR3 works well. Mud Gols can be escaped by running. Lich is waiting for you at the top of the stairway leading to Floor B2.

FLOOR B2

✦ *The Fire Floor*

Here on Floor B2 you'll find enemies familiar from Gurgu Volcano. Treasures such as the ProRing, ProCape and Katana are also kept here. We've blanked out the room interiors to leave more challenge for you.

FLOOR B3

✦ *Floor Of Water*

Use Thor's Hammer and LIT3 to keep the sea creatures at bay on Floor B3. Kraken waits in the long passage at the lower right.

FLOOR B4

✦ *Floor Of Wind*

Three important elements are found here on Floor B4. First is the Masmune, the most powerful sword in the game, which any warrior can wield with spectacular results. Second is Tiamat, who waits for you in the corridor linking the top two square areas. Third is the portal to Floor 5 where the final enemy awaits your arrival.

✦ *Through This Door Is The Final Phantasm!*

At last, on Floor B5, is the ruler of the fiends. Chaos is staggeringly powerful and has virtually every useful magic spell in his bag of tricks. Before entering you should have full HP and close to full magic. Luck plays a big part.

*The Battle With
CHAOS*

Your warriors should be at Level 27 or above to have a good chance against Chaos. Even then your success will be determined by the random spells Chaos uses. Use WALL to protect the White Wizard so he can restore HP and FAST on all fighting warriors.

CHAOS

There's no telling what attack Chaos will use (be prepared for anything)! A powerful lightning attack is your best offense, and it should be spread out. The White Wizard should use the Maximize, but don't let your HP drop!

Chapter 7

Summary Of Events

1 NELMOND

Take the Slab to Dr. Utric and he will teach you to speak the ancient language of Lefeshah.

2 LEFEIN

Learn about the Sky Warriors and how the Charm will grant you access to the Mirage Tower in the desert.

3 MIRAGE TOWER

Collect the treasures of the Tower and talk to the robots. Using the Cube on the top floor you'll reach the Sky Castle.

4 SKY CASTLE

Find the Adamant and take it to the Dwarf Cave for Xalbor, then return to the Sky Castle and battle Teraht, the Friend of Wind.

5 CRESCENT LAKE

Reveal the Circle of Sagas and learn about the final task. You'll also be told how to reach Chaos through the Temple of Fiends.

6 TEMPLE OF FIENDS

Return to the Temple of Fiends. With all four orbs lit, you'll be able to step through the Time Gate into the past.

7 TEMPLE OF FIENDS REVISITED

Put Princess Sara's Lute to use in reaching the depths of the Temple. Find the Masmune and then go after Chaos.

8 THE END

After defeating Chaos you'll learn how Chaos came to power, the meaning of time travel, and who was responsible.

Battle Techniques

The great virtue of the Masmune is that any one of the Light Warriors can use it. Since most parties have two fighting members and two magic users, non-magic attacks are limited.

The Masmune is hidden on the fourth floor of the Temple.

Equipped with the Masmune, a White Wizard becomes a mighty warrior. Suddenly, it's as if a new member has been added to your ranks. Now you'll be able to cut through most enemies in a single turn.

Final Tip

BONUS GAME

Push the A and B Buttons together 66 times while aboard the Ship and the Final Fantasy puzzle game will appear. The object of this mind teaser is to move each block into the correct numerical sequence.

In the game, push A to move the floating block into the open space. To return to your adventure, push B.
